

## **Math 7, Pre Algebra, Algebra 1, Algebra 2, Geometry and Advanced Math Classes at BTM**

In order to be admitted to any BTM math class, you **MUST**:

1. Receive specific pre-approval from the tutor **PRIOR TO** March registration for any math class.
2. The math tutors are in communication with one another and have made recommendations based on the student's current math performance. The prospective math tutor may choose to heed their recommendation and forego an additional assessment.
3. If the tutor is not familiar with your student's math ability, you must take a proficiency test, administered by the specific tutor:
  - a. Cherisse Bracey - Math 7, Advanced Math;
  - b. Kym Kent - Pre Alg, Alg 1
  - c. Cathy Kolb - Geometry, Alg 2
    - i. The test will cost \$15, paid directly to the tutor
    - ii. Evaluations should be initiated by the parent and set up directly with the specific tutor, with the goal of being completed before registration
    - iii. Each tutor will have a separate means of evaluation for their classes
4. If you register for a BTM math class without completing the above steps, the tutor may decline your registration.
  - a. If your registration is declined, your BTM schedule could be affected
  - b. The registration team will likely **NOT** be able to rearrange your schedule if you desire different classes as a result of not being admitted to the math class
